

# Roulette (v1.2)

## 1. Description

Plugin is a simple Russian Roulette game.

User asks to spin. Bot will randomly choose a chamber to fire and tell the user if they were lucky or not. If the bot is able to, it will also kick the unlucky user.

## 2. Configuration

The configuration file for this plugin is **system/Roulette/RouletteConfig.xml**

### 2.1. commandSpin

The command spins the barrel! You can set the authLevel to control who is allowed to access the command. The output is used to define where the output from the command will go.

- **authLevel** - ANY, ADMIN, MASTER, TRUSTED, NONE
- **output** - CHANNEL, PM, NOTICE

```
<commandSpin authLevel="none" output="channel">!spin</commandSpin>
```

### 2.2. spinForOthers

Set if it is possible to spin for another user.

```
<spinForOthers>yes</spinForOthers>
```

## 3. Commands

### 3.1. Play Russian Roulette

**Command:** !spin [user]

**Description:** This cause the bot to sping the chamber and fire the gun, optionally you can spin for another user

**Auth Level:** none

**Where to give command:** channel

**Outputs to:** channel

**Example(s):**

- !spin
- !spin DeadEd

## 4. Change History

v1.2

[DeadEd](#): added config and ability to spin for someone else. Added authLevel to spin
